LOS ANGELES DAILY TIMES.

VOL. X---NO. 13. LOS ANGELES, CALIFORNIA, FRIDAY MORNING, JUNE 18, 1886. FIVE CENTS.

THE WEATHER.

Local Bulletin.

Los Angeles Signal Office, June 17—At 6:07 a. m. to-day the thermometer registered 54; at 12:07 p.m. 85, and at 7:07 p. m. 69 Barometer for corresponding periods, 29.93 29.95, 29 93. Maximum temperature, 90.; minimum, 53.0. Weather at 7:07 p. m. clear.

The Times.

Office—Temple, Main and New High.

Col. H. G. Otis, Editor-in-Chief of the Times, left yesterday for Chicago, to be absent several weeks. He goes to arrange details of the purchase of a new dress and new press for the Times, and to secure additional material, presses and machinery for the Times-Mirror job office and bindery. This is in furtherance of the purpose of the company to keep this, as it has been since its founding, "the leading printing house of Southern California." We wish Col. Otis *bon voyage*, and hope he may get the big end of the bargain in his negotiations with the Chicago foundrymen and manufacturers.

The "Phire Fheend" visited San Francisco again yesterday, and left his card in the shape of a $200,000 blaze.

Attorney-General Mar-hall has stepped up to the captain's office and settled. "For what we are about to receive, O Lord make us truly grateful."

Some interesting gossip about the men who are likely to be in the hands of their friends in approaching political conventions is given in our local columns to-day. As the deaf old wood-chopper remarked on a certain memorable occasion, "The woods is full of them."

A fine statue of Daniel Webster was unveiled yesterday at Concord, N. H. President Cleveland, in a letter of regret at his inability to be present, "paid an eloquent tribute to the memory of the deceased statesman." So says the telegraph. Daniel can rest easy now.

The Grand Army edition of the San José Mercury is one of the finest publications ever issued from a newspaper office in this State. There are twenty-four pages of reading matter and engravings. A bird's-eye view of the country from San Francisco south to San José is especially valuable. An edition of 50,000 was published.

A communication from "X," which has been delayed some days through inadvertence, takes our esteemed contemporary, the Herald, to task for some very careless editorial "figgering." When the editor of the Herald feels the inflation of politics, a million dollars is a very slight margin for him. If he hits within a million of the truth it is a very close shot.

The empty hollowness of wealth when unsupported and allied to that feeling of generous sympathy which makes the whole world kin, was illustrated on Decoration day, where, in the midst of graves hidden in flowers, Vanderbilt's tomb remained bare. Nobody seemed to take enough interest in it to hang a wreath upon it. The vault is guarded day and night, as it has been for five months, by sentries, and eight Pinkerton detectives live close by. But the dead millionaire sleeps uncared for by the great world, with not a flower upon his grave to tell that he is still remembered.

The Times enjoyed a pleasant call last evening from T. L. Miller, of Beecher, Ill., the founder and publisher of the American Hereford Register and publisher of the Breeders' Journal. Mr. Miller outranks all breeders of Herefords in the United States, and his fine stock is known from Texas to Montana and from Maine to California. He has exhibited at all the prominent fairs and fat stock shows east of the Missouri river, and has won the prizes everywhere. Mr. Miller thinks so favorably of this country that he proposes to establish here a breeding farm for Herefords. When the live stock industry of Southern California secures such men as Mr. Miller it is advancing with seven league strides. The prediction was made in this paper long ago that our county would some day excel as much in producing fine stock as it now excels in the production of fruits. The breeders of fast horses have demonstrated this; now let the cattle men follow suit.

AMUSEMENTS.

"Handy Andy"—an Irish comedy, was produced at Merced Hall, last night, by the Ivanhoe Dramatic Company, composed of amateurs from Wilmington and this city. The hall was well filled with a respectable, though not over-critical, audience. The hero of the play is Lover's celebrated character, "Handy Andy," who made trouble for himself by understanding things too literally. The part was sustained by Joe A. Weldt. Several of the other parts were taken by persons who are occasionally heard of in the amateur theatrical field. The performance concluded with a dance.

Let us Celebrate.

Hon. H. T. Hazard, Mayor E. F. Spence, Major Geo. H. Bonebrake, Brigadier-General John R. Mathews and 40 other prominent citizens have issued a call for a meeting at the Mayor's courtroom at 8 o'clock this evening, to arrange for a proper celebration of the Glorious Fourth. The time for fixing the preliminaries is short, and the meeting to-night should be fully attended.

The Downey Fair.

The directors of the Los Angeles County Agricultural Association held their first meeting for the season on Tuesday, the 15th, at Downey. There was a full attendance of the Board, and the preliminary steps for holding a fair were taken. The date chosen is September 28th to October 1st, inclusive. The officers are the same as last year—President, A. E. Davis; Vice President, W. C. Smith; Secretary, F. B. Willis; Treasurer, M. D. Crawford. Arrangements are being made to make the coming fair the largest ever held in the county.

The Oil Fields.

Wm. Lacy is back from a visit to his Puente oil fields, where he found things in very encouraging shape. Well No. 5, which made such a spurt and such an excitement a week ago yesterday, is being capped. It is owned again day before yesterday. Well No. 6 will be begun in a few days.

Loss Time.

Charles Morgan, fireman of engine No. 226 of the S. P. R. R., reports at police headquarters that some one stole his watch and chain from the engine while she was in the round house for repairs. The watch cover bore the silver Elgin; the chain a gold one, with links of peculiar pattern. He thinks some of the workmen got away with it.

FOREIGN.

Gladstone Sets Out on His Scotch Campaign,

AND RECEIVES AN OVATION ON THE WAY.

France Calmly Absorbs the New Hebrides, and the British Lion Shows his Teeth—Notes.

Associated Press Dispatches to The Times.

London, June 17.—Gladstone started this morning on his Scotch campaign. He was accompanied by Mrs. Gladstone. Thousands of people congregated at the railway station to witness his departure. The people appeared to be desirous of having the Premier address them with some parting words before going away on his arduous errand. He arose and spoke from the coach window. He thanked the people for the honor of their "extraordinary demonstration." He adjured them to allow nothing to slide from them the true question of the hour.

THE PREMIER'S PARTING WORDS.

"Attempts have been made," the venerable orator exclaimed, "and will be made, to divert your attention from the real question at issue. This question is solely whether Ireland shall be trusted to manage her own affairs. Those who deny Ireland this right admit that Canada and the other British colonies enjoy such rights. Are we to trust our fellow subjects in Ireland and govern by love, or are we to adopt the policy of the government's enemies and introduce into Ireland a government by force?"

Gladstone then bade his hearers good-by, and the train moved away. Enthusiastic and prolonged cheering accompanied its departure, and hundreds of people waving handkerchiefs and hats and God-speeding the Premier, ran along the platform beside his coach until the train outsped them.

A CONTINUED OVATION.

At Luton and Bedford the crowds at the stations cheered Gladstone as the train sped by. At a stop made at Leicester was reached. Here there was a enormous gathering, which gave the Premier an enthusiastic greeting. A few groans from the outside of the crowd were soon discontinued. A committee presented Gladstone with an address expressing confidence in him and his Irish scheme. The Premier made a brief reply. After thanking the people for his reception he said: "Little time is now allowed me to speak upon the great question before the country, namely, will you give Ireland what you give the colonies with the greatest advantage, the power to manage not imperial but Irish affairs? During my fifty-four years of public life, I never saw enthusiasm everywhere equal to that which has been shown in this great cause. The eyes of the world are now upon us in a degree never equalled before. Not only the whole British race, but the whole civilized mankind has testified the liveliest interest in the question. If, as I have ever reason to believe, the verdict shall be favorable to the people of Ireland there, it will be nothing less than they enjoy throughout the civilized world. I place before you this noble object. Human sympathy combined with justice, commends it to your deep deliberate consideration. For you never had an issue to determine, more charged with good or evil to the future advancement of this great empire."

The speech was received with wild enthusiasm. The train arrived at Trent ten minutes after one. Another halt was made. Here, as at other places, there was a huge crowd. It was composed not only of the inhabitants of Trent, but of people from Nottingham, Ilkeston, and every other place near by. A crowd of immense proportions awaited the train at Gallashiels. There is great excitement at Gallashiels over the approaching election. The opinions of the people on the Irish question are about equally divided. Gladstone will speak at Glasgow on Tuesday. The meeting will be held in Hengler's House, which will hold 5000 persons.

ARRIVAL AT EDINBURG

Enormous crowds greeted Mr. Gladstone at all the towns on the route from Carlisle to Skipton. At Edinburg 40,000 persons lined the route from the railway station to the hotel, and the police had great difficulty in making a passage way for the Premier's carriage. Mr. Gladstone says he feels no ill effects from his journey, and that he is extremely gratified at the reception he has met with at every place where he has spoken.

PREPARING FOR THE CAMPAIGN.

London, June 17.—A circular signed by Thomas Power O'Conner has been issued to 400 branches of the Irish National League in Great Britain. It orders the formation of election committees and other preparations for the coming struggle, and says that explicit instructions to cordially and energetically support the Gladstonian Liberals will be forwarded later.

GOSCHEN'S MANIFESTO.

London, June 17.—Goschen has issued a manifesto to the electors of Edinburg in which he says: "I have said nothing in my speeches which I wish to retract. I deny that there is no alternatives between Gladstone's scheme and coercion. I deny that the Parnellites must be the sole arbiters, or that a separate Irish Parliament and Executive is the only feasible solution of the Irish question. I favor large measures, decentralization, relieving the Imperial Parliament of a portion of its work, but these should always be subject to the control of the Imperial Parliament. Gladstone's scheme is indefensible in principle and unworkable in practice. It only reserves to the Imperial Parliament a paper supremacy. The adherents of Gladstone do not defend the details of the scheme. They simply maintain the abstract principle of home rule. Therefore their accusation that the opponents of the scheme have no definite alternative recoils on their own heads. But the Unionists are willing to extend the local powers of self-government equally applicable in England and Scotland, such power to be always subject to Imperial control. No decree for momentary relief, no appeal of party or class ought to divert the people from defending the supremacy of Parliament, which is the real issue at stake."

THE NEW HEBRIDES.

France Annexes the Islands in Defiance of England.

London, June 17.—Special advices from Noumea, the capital of New Caledonia, received late this afternoon, state that the French man-of-war Diane has returned from an expedition to the New Hebrides. Its officers say that the expedition landed troops and hoisted the French flag over the islands of Sandwich and Malacolo. After establishing military posts deemed necessary for the protection of the French interests, the residents, irrespective of nationality, were notified that France had taken possession. The Noumea newspapers congratulate France on her annexation of the New Hebrides Islands in defiance of England and her colonies. New South Wales has dispatched a strong protest to London against the French annexation.

THE NEWS IN ENGLAND.

London, June 16.—In the House of Lords this evening, Lord Salisbury gave notice that he would ask to-morrow concerning the unexpected action of France in the New Hebrides Islands.

WHAT IS SAID AT PARIS.

Paris, June 17.—The Temps asserts that the government has given no orders likely to cause a rupture at present between France and the New Hebrides. It says that merely temporary measures have been taken to protect French subjects.

THE LATE LUDWIG.

Some Examples of the Bavarian King's Eccentricities.

Munich, June 17.—Among the documents which have been submitted to the Diet to prove the insanity of the late King Ludwig is a decree of the dead monarch sentencing some ministers to death, copies of which were sent to all members of the government, and a decree sentencing a number of ministers to banishment to America. The affidavits of thirty persons have also been submitted, in which it is stated that the King injured them by throwing at them knives, china and glass. There is also a document relating to the proposal of the King to form a cabinet, with his valet as president.

A number of persons have been arrested here for distributing pamphlets containing attacks on the Bavarian Ministry for alleged wrong doing.

The German court will go into mourning for a period of three weeks. The late King left no will. Dr. Schleiss denies giving an opinion upon the King's condition or publishing a report in the newspapers. He says that the chronic inflammation of the cerebral membrane justifies the theory of Ludwig's insanity, and that the normal condition of the cerebellum explains the faculty of clear judgment possessed by the King in spite of the fact that in other respects his mind was diseased.

FOREIGN NOTES.

The French Senate in no Hurry to Expel the Princes.

Paris, June 17.—If the Senate passes the expulsion bill, M. Waddington will resign the French Ambassadorship at London, and the other French Ambassadors will do likewise.

Paris, June 17.—The Senate Committee has rejected, by a vote of six to three, all proposals for the expulsion of the princes.

TROUBLE BETWEEN CHURCH AND STATE

Paris, June 17.—Goblett, Minister of Public Instruction, has prohibited the meeting of the church congress, arranged to be held at Toulouse. The Archbishop of Toulouse protests that the congress is to be devotional and not deliberative, and denies that the office of Public Instruction has the power to prohibit its meeting. The Archbishop announces that the congress therefore will be held despite Goblett's orders.

HONORS TO DR. HOLMES.

London, June 17.—An honorary degree of Cambridge University was conferred upon Dr. Oliver Wendell Holmes, in the presence of a large assemblage, to-day. The president delivered a laudatory address to Dr. Holmes.

THE PANAMA CANAL LOAN.

Paris, June 17.—The Government has submitted to the Chamber of Deputies a bill to authorize the Panama Canal Company to issue its proposed lottery loan.

POWDERLY.

The Master Workman Scents a Plot Against the Knights.

Philadelphia, June 17.—General Secretary Turner, of the Knights of Labor, on being shown by a reporter the secret circular of Powderly, published to-day, acknowledged that copies of the same had been sent to the General Assembly, and that considerable expense had been incurred to maintain secrecy. He would hereafter urge that all such matters be given to the press at once. In a circular the Knights of Labor are warned against what Powderly considered a plot to pack the convention, to be held in the month of October, with politicians, and which he claims to have discovered in a movement which is on foot to disrupt the order by underhand means.

Through a Trestle.

Pittsburg, June 17.—A special from Foxburgh, Pa., says: "In the accident at the Paint Creek trestle, on the Pittsburg and Western railroad, last night, by which three persons lost their lives and another was so badly injured that recovery is doubtful, the axle on the middle car of a long freight train broke just as the train was on the center of the trestle, and then the train of twenty cars was thrown into the creek forty feet below. A large portion of the trestle work was carried with the falling train. Four of the crew were buried in the debris, the fifth, Conductor Kime, escaping injury by jumping. When the wreck was cleared it was found that Engineer George S Ettlings and Brakeman Steffey and Kase had been killed. Fireman Goughler was still living, but his injuries are believed to be fatal.

Charleston's Gift to Cleveland.

Charleston, S. C., June 17.—President Cleveland, in a letter which is to be published here to-morrow morning, expresses the sincere thanks of himself and Mrs. Cleveland for a magnificent wedding gift received from the citizens of Charleston. The present consists of a massive silver vase, accompanied by a letter to Mrs Cleveland, saying that it is intended as a token of the high esteem in which President Cleveland is held in Charleston, "by reason of his ability, his true manliness, and his constant fidelity to his obligations under the Constitution and laws of these re-united States."

Webster's Statue.

Concord, N. H., June 17.—The statue of Daniel Webster presented to the State by Benjamin Pierce Cheney, of Boston, was dedicated to day with imposing civic and military ceremonies. The statue is eight feet high, and weighs 2000 pounds. A letter was read from President Cleveland, in which he regrets being unable to attend the ceremonies, and pays an eloquent tribute to the memory of the deceased statesman.

Floods at Pittsburg.

Pittsburg, June 17.—The heaviest rain of the season visited this section last night and this morning. Various city stores are flooded, and in Mulberry alley twenty families were washed out of their houses by a trench overflowing and filling their dwellings with water. Washouts and landslides are reported on several railways, and trains are badly delayed.

Prohibition Nominees.

Portland, Me., June 17.—The Prohibitionists of the Second district to-day nominated Col. W. S. Eustis for Congress.

Portland, June 17.—The Prohibition State Convention was held here to-day. Aaron Clark, of Buxton, a farmer, was nominated for Governor and accepted the nomination.

Anti-Chinese Conspirators Convicted.

Olympia, W. T., June 17.—This afternoon the jury returned a verdict of guilty in the case of Montgomery, Gooding, Bales and Harizel, under indictment of conspiracy to thwart the United States laws during the Chinese excitement last February. The jury recommended the defendants to the mercy of the Court.

Great Suffering at Vancouver.

Victoria, B. C., June 17.—The news from Vancouver is heartrending. Fully 3000 people are homeless and penniless. The losses will aggregate $800,000. Seven bodies have been found in the ruins and identified by portions of their clothing. Four men who leaped overboard to escape the flames were drowned.

Summary Justice.

Omaha, Neb., June 17.—Eli Owens was arrested for raping Ida Grise, aged 16, in sister-in-law, was taken from jail at Hebron, Neb., this morning at three o'clock, and hanged to a tree by a masked party of men from Alexandria, where the crime was committed.

WASHINGTON.

Morrison Bombards the House With Tariff,

BUT THE NATION'S LAWMAKERS DODGE.

The Senate Administers a Rebuke to Cleveland—Stray Social Happenings at the Capital.

Associated Press Dispatches to The Times.

Washington, June 17.—In the House to-day, Mr. Morrison moved to go into Committee of the Whole to consider the Tariff bill.

The motion was defeated—yeas, 140; nays, 157. The Speaker voted for the consideration. Great applause greeted the announcement.

Mr. Morrison gave notice that he would renew his motion on Tuesday next, and Mr McKinley stated that the opponents of the bill would be on hand.

An analysis of the vote on Mr. Morrison's motion to go into a committee of the whole, for the purpose of considering the tariff bill, shows that of 140 affirmative votes, 136 were cast by Democrats and four by Republicans. Three of the Republicans are from the State of Minnesota, Messrs. Nelson, Strait and Wakefield, and the fourth, Mr. James, is one of the New York Representatives.

Of 136 Democrats voting, 122 were Representatives from the eastern and middle States. The Ohio Democrats voting for consideration were Messrs Anderson, Hill and Outhwaite. The New York Democrats were Adams, Beach, Belmont, Felix Campbell, Hewitt and Mahoney. The Pennsylvania Democrats were Scott, Storm, and Swope. Of 157 negative votes 122 were cast by Republicans, and 35 by Democrats.

Of 35 Democrats voting in the negative, 6 came from the Southern States, as follows: Maryland—Findlay; Louisiana—Guy, Irion, St. Martin and Wallace; Alabama—Martin. The Western States contributed 11 negative votes, as follows: California—Henley; Illinois—Lawler and Ward; Ohio—Campbell, Ellsberry, Foran, Geddes, Lefevre, Sobey, Warner and Wilkins. The remaining Democratic negative votes were cast by members from New York, Pennsylvania and New Jersey, as follows: New York—Arnot, Bliss, T. J. Campbell, Dowdney, Merriman, Muller, Pindar, Spriggs, Stahlnecker and Viele. New Jersey—Green, McAdoo and Pidcock. Pennsylvania—Boyle, Carlin, Ermentrout, Randall and Sowden.

Of the gentlemen paired, Aiken, of South Carolina, have been taken the oath of office, having been ill since the beginning of the session. The only members absent and unpaired was Fredrick, of Iowa, who was confined to his home by illness.

Mr. Morrison seemed to accept philosophically his defeat on the tariff to day. He said he was not disappointed in the result and that he had foreseen it for many months, but this was a thing to which the party and the administration was pledged, and he "had to make the fight, hit or miss." When asked why he intended to again call up the bill on Tuesday next, he said with a smile, "It will give them a chance to repent." But he declined to express any opinion as to whether he expected a change in Tuesday's result.

NATIONAL NOTES.

Why the Senate Rejected Judge Shields's Nomination.

San Francisco, June 17.—The Call's Washington special says, regarding the rejection of the nomination of J. C. Shields to be Chief Justice of Arizona: "Judge Howard, the late incumbent was, it is said, removed through Mormon influence, and Shields's rejection was intended in some measure as a rebuke to the President for allowing Howard to be punished for his activity against Mormonism. There were other reasons, however. Charges of incompetency were filed by leading Democrats, and so well sustained that Senator Pugh of Alabama presented a report recommending Shield's rejection.

To promote commercial prosperity

Washington, June 17.—Among the measures passed by the Senate to day, was the bill to promote the political progress and commercial prosperity of American nations. This is Frye's bill authorizing the President to invite, on behalf of the people of the United States, delegates from Mexico and Central and South America to meet in Washington, October 1, 1887, to meet delegates on the part of the United States to consider such questions and recommend such measures as shall be of mutual interest and for the common welfare of the American States.

SIGNAL CORPS APPROPRIATION.

Randall to day reported the Sundry Civil bill. Under the head of signal corps it is provided that the whole number of second lieutenants appointed and to be appointed from sergeants of the signal corps shall not exceed sixteen, and the whole number of enlisted men in the signal corps shall not exceed 470, and that no part of the appropriations made for the signal service by this act shall be used for the maintenance or support of a school of instruction nor of the military post at Fort Myer, Virginia.

SOCIAL EVENTS.

Hon. H. J. Durham, of Kentucky, First Comptroller of the Treasury, was married this afternoon to Mrs. Margaret Letcher Carter, of Kentucky.

Secretary and Mrs. Endicott gave a dinner in honor of the President and Mrs. Cleveland this evening. The other guests were: Secretary and Mrs. Whitney, Postmaster General and Mrs. Vilas, Gen. and Mrs. Sheridan, Admiral Rogers, Senator Sherman, the President pro tem. of the Senate, Speakers and Mrs. Carlisle, Miss Bradley, Miss West, daughter of the British Minister, Mrs. W. S. Endicott, Jr., and Miss Endicott.

RENOMINATED.

Representative Townshend, of Illinois, this evening received a dispatch announcing that the Democratic Congressional Convention of the Nineteenth District to-day renominated him by acclamation.

APPROVED.

The President to day approved the act authorizing the construction of a bridge across Staten Island Sound, known as the Arbur bill, and to establish the same as a post road.

A British Bark's Mishap.

Portland, June 17.—This morning the British iron bark Alliance, Capt. Thomas, from Melbourne in ballast, grounded off Monumgomery's wharf at Albina. The tow boat Oklahoma came along side and made fast, when the Alliance loosed her moorings and she careened over slowly. She caught the Oklahoma, smashed her pilot house and did about $1000 damage to the boat. Fortunately the tow boat held her up and the vessel did not sink to her hatchways which were open. If she had, seven men who were working in the hold would have been drowned. The damage to the Alliance, direct and indirect, will be about $5000.

Boston Aid for the Sea Rule.

Boston, June 17.—The great festival and ball in aid of the Irish parliamentary fund, which has been in preparation for many weeks, came off this evening. The profits will probably reach $10,000. Addresses were made by Governor Robinson of Mass., and Governor Hill of New York, and others.

Freight Train Wrecked Near Lathrop.

Lathrop, Cal., June 17.—A freight train was wrecked three miles south of Lathrop. Ten cars are in the ditch. The cars and freight are considerably damaged. The wreck was caused by a broken axle. The overland express south will be detained ten hours.

SAN FRANCISCO.

Another Large Fire—Funds for the Grand Army Encampment.

San Francisco, June 17.—Shortly before four o'clock this morning fire was discovered in the basement of the large four-story iron building numbered 18 to 26 Ellis street, occupied at Nos. 18 to 22 by Wm J. Heney & Co., carpet manufacturers and importers, and Nos. 24 to 26 by T. M. Antisell & Co.'s piano manufactory and warehouse. The fire confined itself to Antisell's part of the building, but gained little headway, because of the material in the structure. The firemen had it under control in a short time, but as smoke continued to arise from the basement and out of the windows on the first and second floors of the warehouse steady streams were played up to nine o'clock. Owing to the fact that the conflagration was what is known as a "blind" fire, it was impossible to tell until its complete extinction the extent of its ravages. It proves to have been much more serious than any one had anticipated. T. M Antisell & Co. had about 500 pianos besides a large stock of material on hand, and their loss is estimated at $200,000, on which there is an insurance of $100,000. W. J. Heney & Co.'s loss is estimated at $25,000, covered by insurance. The damage to the building, which is owned by Mrs. Mark Hopkins, is $5000, also covered by insurance.

Funds for the G. A. R. Encampment.

At a meeting of the General Committee on the management of the Twentieth National Encampment of the Grand Army of the Republic, last evening, the statement was made that a report had gained circulation that the committee would not be able to carry out their plans for lack of funds. The Finance Committee, however, reported that of the $60,000 subscribed for expenses of the encampment, $55,000 had been appropriated, and that the General Committee might rely on obtaining that amount.

The California Theater Row.

This afternoon in Judge Bix's Court the case of Prentiss M. Clarkson, arrested yesterday at the instance of Mc-Kee Rankin on a warrant charging him with forcible entry and detainer in connection with the controversy over the possession of the California Theater, came up for trial. Clarkson was discharged, as Rankin did not desire to prosecute the case.

Arrival of the Arcata.

The steamer Arcata, which ran on the rocks near Fort Ross, June 15, and later sank and capsized, was brought to this port to-day in tow of the tug Monarch, and is now lying alongside the sea-wall. The extent of the damage has not yet been ascertained.

An Appeal for a Subsidy.

In an editorial to-morrow the Merchant, in an appeal to Congress for a subsidy to steamships between this port and the Australian colonies, will print what it terms a remarkable exhibit showing that our Australian exports have increased, in the past two years ending December 31, 1885, from $6 500,000 to $11,500,000, and the balance of trade in favor of the United States has increased in the same period from $4,500,000 to $9,000,000.

Wrestling Matches.

Salt Lake, June 17.—A great wrestling match for $1000 and gate money was finished here at an early hour this morning. The contestants were John Ouchbee, United States Deputy Marshal, and D. A. McMillan, of Park City, formerly of San Francisco. McMillan won the collar-and-elbow bout in 15 minutes. Ouchbee won the catch-as-catch-can in 26 minutes. McMillan won the Graeco-Roman in 4 minutes. Ouchbee won the Cornish style in 5 minutes. Ouchbee won the side hold in 11½ minutes. Ouchbee won altogether about $2500 on the match, and probably twice as much more changed hands.

Cincinnati, June 17.—Twenty-five hundred people assembled at the Grand Opera House to-night, to witness the Graeco-Roman wrestling contest between William Muldoon and Thomas Cannon. Muldoon won the first bout in thirty-five minutes and Cannon the second in eight minutes. After wrestling fifty-six minutes for the third and final fall, the referee declared the bout and match a draw. Muldoon became very sick after the first 15 minutes' wrestling. Cannon was not in first-class condition.

PICO VS. COHN.

A Venerable Lawsuit Entangled in Fresh Complications.

The case of Pico vs. Cohn was called in Department No. Two of the Superior Court yesterday, and continued by consent until the 25th instant, at 11 o'clock, when it will be tried by Judge Williams without a jury. A. Glassell, Esq., one of the attorneys for the plaintiff, introduced an affidavit in which he avers that Judge Williams is not duly qualified to try this or any other case in Los Angeles county, owing to some technical oversights in the minutes of the court at the time he took the bench in Brunson's place. S. M. White, Esq., of counsel for defendants, counteracts this document by a counter-affidavit, in which he holds that Judge Williams is perfectly qualified to try the case of Pico vs. Cohn et als. Lots of legal cap has been used in this case since its beginning, and by the looks, "slathers" of it will yet be spoiled before "Pico vs. Cohn" is at rest.

Drowning of Miss Lou Anderson.

From a San Rafael Journal.]

Another awful visitation has come upon San Rafael. Last Saturday evening our people were startled and shocked to learn by telephone from San Francisco that Miss Lou Anderson was drowned that day in the Sacramento river, near Rio Vista, while bathing from the yacht Ariel, with a party of members of the Artists' League. Several of the ladies were in bathing, and they had been cautioned against one place in the river as dangerous. A nephew of Mrs. Sears was drowned there about a year ago. Miss Anderson and Miss Black, the latter aged 13, got too near the place—an eddy or swift current—when Miss Anderson pushed Miss Black into safety, and herself immediately sank—thus losing her life in an act of heroism.

We recall no event in local history which stirred a deeper or more general sorrow in the public heart. Miss Olive Santa Louise Anderson was well known as the principal of the San Rafael Young Ladies' Institute, a prosperous and influential school, which under her wise care and management had become an established success, with a bright future before it; and in a very large circle of personal friends she was both admired and beloved.

In any society Miss Anderson was a person of mark. For a lady she was an accomplished athlete. She took delight in exercising with her pupils in the gymnasium she had fitted up at her school, and with the same companions she took long strolls over the hills, such rambles sometimes extending to doubling Mount Tamalpais in a day. Her figure was tall and lithe, and her step like the step of a deer. She was fond of tennis, archery, a good swimmer, an enthusiastic member of the Artists' League, and fond of all graceful sports. Her mental attainments were of a high order. Upon the substructure of a liberal education she builded assiduously and from a love of learning, and was familiar with the freshest thought of modern science and philosophy, while for recreation she took the strong leaders of fiction, like Geo. Eliot. In her walks she always carried a book, and often read while walking. As will be seen, she leaned to the masculine both in mental and physical bent, yet withal we blended a feminine delicacy and refinement which added grace to strength, and made the strong-poised, spherical character she was.

PRISCILLA WINS.

The New York Yacht Increases Her Chances

OF DEFENDING THE AMERICA'S CUP.

A Fine Contest Among the Crack Boats off Sandy Hook—The Mayflower Badly Beaten.

Associated Press Dispatches to The Times.

New York, June 17.—The New York Yacht Club's race to-day was repetition of Tuesday's affair in that the wind was very light and it was impossible to correctly judge the respective merits of the giant sloops. Interest was centered in the sloops from among which one will be selected to contest for the America's cup; and though there were twenty or more clippers, large and small, in the regatta, the eyes of the public were only turned to four. These comprised the New York sloop Priscilla, the Boston sloop Puritan, both of which sailed in these waters last year; and two new sloops, the Atlantic, owned in New York, and the Mayflower owned in Boston. The Priscilla again proved herself to be a great boat in windless weather, but what she can do in a blow was not demonstrated. The work of the Atlantic was admired on every hand. She started off last and under unfavorable conditions, yet she landed second among the "Big Four." The Mayflower was not in first-rate trim for the race, so her performance cannot go as a basis for a complete judgment as to her capabilities. What she did do was not satisfactory and she was considered cranky. The Puritan did not do as well as was expected of her even in the light winds. The general opinion was that she was not handled properly. It was considered by all hands, however, that the Priscilla showed astonishing merits outside of Sandy Hook, where there were several spasms of good breezes, both in pointing and footing. Though the weather was threatening and rain soon fell occasionally, there was a large fleet of excursion boats out, filled with people to witness the race, which was over the forty-mile course.

The start was made, in a light wind, at 11 o'clock. On the first stretch the order was: Puritan, Priscilla, Atlantic, Mayflower, but the Priscilla soon passed to the front, and steadily increased her lead, the Mayflower also running well, and taking second place. The Atlantic, apparently badly sailed, was last. They kept in this order rounding buoy No. 8½. There was then a run to the Sandy Hook lightship, and the Priscilla passed it first, in a driving rain squall, which shut from view the others as they rounded. From that point home there were rain-squalls and winds shifting very frequently. The Atlantic at last began to show some good qualities in both speed and pointing and came up into second place. The Priscilla maintained her lead steadily to the finish, losing nothing at any point except when becalmed once or twice on the last stretch. The Atlantic came in second, 13:10 minutes later, the Puritan 1 minute behind her, and the Mayflower last, 12½ minutes behind the Puritan. The second-class sloop Bedouin was entered, subject to measurement, and held a good place among the big fellows throughout, crossing only 6 minutes and 20 seconds behind the Priscilla. If, upon measurement, she shall be found not to exceed 70 feet, she will be in the special class, and her time allowance will give her the race over the Priscilla.

Suicide or Accident.

Woodland, Cal., June 17.—This morning George J. Shoopnack, a prosperous farmer living near Cacheville and Supervisor of Yolo county, shot and killed himself. Whether it was suicide or accident is not yet known.

Marshall Pays the Money.

Sacramento, June 17.—Attorney General Marshall to-day paid into the State Treasury $768,685 railroad tax money.

Electro-Magnetism, the New Means of Cure.

Dr. E. Robbins's Electro-Magnetic Institute, corner First and Spring streets, entrance on First street, is now fitted up, at considerable expense, with everything that is necessary to cure chronic and so-called incurable diseases, by the finest electrical apparatuses in the world. Turkish and Russian baths; also electric sulphur baths. Dr. Robbins has had several years' experience in the Australian colonies, San Francisco, Salt Lake City, Denver and three years in Los Angeles, and hundreds of leading citizens can testify to the wonderful effects of electricity in curing cases of chronic diseases when all else had failed, and therefore all persons suffering should try this new remedy before abandoning all hope. After every treatment the patients are treated with the Massage treatment, by persons of their own sex. The Doctor diagnoses disease without explanation from the patient, free of charge. His office hours are 8 till 12, 1 to 5.

Gentlemen's clothes cleaned or dyed and repaired at short notice at MARTEEN'S, 20 Aliso street.

Railroad Tickets

Bought, sold and exchanged. Cheap tickets to all points. R. J. PRYKE & CO., Ticket Agents and Brokers, 230 N. Main street.

Skillful, reliable and thoroughly scientific dyers at the Great American Dye House, No. 9 Aliso street.

The Woman's Exchange.

First—Is intended to benefit deserving and industrious women by affording an opportunity to dispose of their work to persons who are willing to purchase useful articles.

Second—The Exchange can furnish choice articles of food cooked to order, ready made fancy articles, and everything that represents woman's work—and here is an opportunity for the generous-hearted to do a gracious act and yet get the full worth of their money. The commission for selling is barely enough to pay the small expenses of the Exchange. Call and see the work. 17 S. Main street.

Iron Sulphur Springs.

Thirteen miles' drive east, near the ostrich farm; pleasant health and pleasure resort, located on high mesa land. Hot mineral baths, equal to Hot Springs of Arkansas. Mineral waters remarkable for cure of rheumatism, diseases of stomach, kidneys, skin and nervous system. Good hotel, pleasant grounds. Two trains daily on Santa Ana Railroad; $1.25 round trip. Daily mail and telephone.

E. F. Moorhouse, 146 S. Spring St.

Jobbing in carpenter work. Step-ladders and orange ladders a specialty. Agent for Centennial windmills. Plaster paris ornaments for sale, put up and guaranteed. Telephone 341.

Ice-cream given away at Brown's Restaurant, 36 N. Main street, with dinner every day from 11 a. m. to 4 p. m.

Honey Cane Shooks

For sale by George E. Dickson, agent Capital Box Factory. Office with Harrison & Dickson, 231 N. Los Angeles street.

Special Notices.

Los Angeles, March 17, 1886.

Mrs. Elsie Reynolds gives materializing seances on Wednesday, Friday and Sunday evenings, at 336 S. Spring st

To the Public.—This is to certify that Dr. Wong Him, Chinese doctor, of No. 117 Upper Main st., has cured my boy and girl of long standing consumption. The doctors of this city had given up my little boy and said that he could not live, but I was tempted to try as a last resort Dr. Wong Him, and in the short space of a month and a half he cured him entirely. Our gratitude and happiness impel us to use this means of rendering the capabilities of Dr. Wong Him to the public. JOSE M. CORONADO, Los Angeles, Cal.

THE "TIMES" IN SAN FRANCISCO.

The Times may hereafter be found on sale at the Palace Hotel News Company's stand, Palace Hotel, San Francisco.

Entered at the Los Angeles Postoffice as second class matter.

The Times.

FRIDAY, JUNE 18, 1886.

Interesting to Advertisers.

Our WEEKLY MIRROR, a large eight page paper, containing a complete epitome of the world's news and graphic correspondence from all the neighboring towns in Southern California, has assumed such proportions in point of circulation throughout the country, that we are prompted to recommend it as a very valuable advertising medium to our merchants, clothiers, grocers, hardware men, nursery men, and all others who wish to introduce their business to the agricultural population.

We can very truthfully assure business men of Los Angeles and elsewhere, that the WEEKLY MIRROR is the best medium in this section of the State for reaching the farmers, stock-men, fruit-raisers, miners and all others in the country.

Real estate men would do well to take advantage of the fact that they can reach, through our weekly paper, a very large class of capitalists and other persons East who are interested in this section of the State, as we have a large and rapidly increasing circulation throughout the North, Northwest, East and South.

MIRROR ADVERTISING RATES.

By the Square (ten lines.)

Transient advertisements, per square per week, $1 00.

Regular running advertisements, per square per month, $1 50.

By the Line.

Business and professional cards, per month per line, 15 cents.

Reading notices, each insertion per line, 30 cents.

Reading notices, in nonpareil, each insertion per line, 15 cents.

A liberal discount will be made on large advertisements.

Our Educational Growth.

The annual period of college commencements so proudly recognized in older communities is getting to be a feature of Los Angeles. Our higher institutions of learning have so rapidly multiplied, within the past three or four years, that the educational advantages which Los Angeles has to offer to the rising generation are not so far behind those to be found in much older cities of the older States. Los Angeles has added to her educational institutions nine colleges and seminaries within the past three years. Thus, in all the rapid advance of the times, in the direction of better things which our city has made, there is nothing in which Los Angeles may more justly take pride than in the multiplication of her churches, her schools, her colleges and her university.

Educationally and religiously we are no longer in the backwoods. In these grand essentials of life and progress we are not behind the age. Los Angeles is prepared to fit her sons and daughters for large and intelligent usefulness. Once it was a momentous question with parents contemplating a removal to this section of the State, "What shall we do as regards the education of our children? We cannot take them with us without cutting them off from those educational and religious opportunities which we feel it our duty to give them." This consideration, but a few years since, kept hundreds from bringing their families and making their homes with us. "We must remain here," they said, "until our children are old enough to leave school, or else we must leave them behind us to complete their studies, while we go out to make a new home for them there." But others came, bringing their families, bringing with them, too, a determination to plant here and to sustain schools and churches and all of those higher institutions of learning which are so distinctive a feature of the older and more populous communities of the States. And nobly and bravely has this determination been carried out, and our colleges and university, our musical conservatories, our public schools and schools of medicine all attest the intelligence, the enterprise and the determined advancement of this growing metropolis of Southern California, and, in addition to our fertile soil, our almost unlimited, though yet undeveloped resources, our incomparable climate and varied productions, they constitute one of the strongest inducements to those in search of new homes, to come to Los Angeles where their children can grow up not only enjoying the delights of our climate, but missing none of the advantages belonging to the old life which they leave behind them.

The Scientific American comes out with a long enumeration of the evils resulting from the use of beer, which must be most unwelcome and harrowing to the friends of that beverage. It asserts that beer is more dangerous than whisky. "A degeneration of all the organs, profound and fatty deposits, disturbed circulation, condition of congestion and other signs of deteriorations are results of beer drinking."

NEIGHBORHOOD NEWS.

COMPTON.

RECOVERY FROM SCARLET FEVER—ALFALFA A SLOW GROWER—A 60,000 DAIRY AND CHEESE FACTORY.

Correspondence of the Times.]

COMPTON, June 16.—Improvement on the M. E. Church is progressing satisfactorily. The painters paint the boards about as fast as they are nailed on.

O. Lockwood and family have returned from a visit to Iowa—glad to get back and sniff the sea breeze, and to enjoy the cool, refreshing nights.

There is a large area of corn planted in this vicinity, and it is now looking well.

For some unexplained reason the alfalfa has not made its usually rapid growth this season, but it seems to be taking a new start now.

Dick Hettehew, who lately located here and bought the big blacksmith shop, has erected a warehouse for farming implements and a paint shop. And, now, to make the people think he really means business, he has gone and got married. The bride used to be called Miss Mattie Kon, but that is a thing of the past. The happy event took place at the residence of the bride's father in Los Angeles, on the 8th inst. Our best wishes go with the happy couple, and long may they wave.

The ice-cream and strawberry festival, which was to come off last Saturday evening for the benefit of the Compton brass band, was postponed on account of the scarlet fever in town. Now, as the sick ones are getting well and there are no new cases, the festival will be on Saturday evening, June the 26th. There will be a cake containing a gold ring. He will be sold by the piece and somebody will get a solid gold ring for a few cents.

The band is making good progress under the instruction of Prof. Lipser, of San Pedro.

The new enterprise of Messrs. Sessions & Bigelow, of Cleveland, O.—the large cheese factory two miles north here—promises to be quite a big thing. They have 327 acres of land, 105 of which is in corn—now looking fine—and 100 in alfalfa. They have built two cow stables, 36x136 feet, and one 36x146; three large hay barns—the largest 40x100 feet; besides a boarding house, work-shop, dwelling, creamery and cheese factory. Everything is on the most approved plan. They have laid out $60,000 already. There is 30,000 feet more of lumber to be used in buildings and fences. It will be some time before they begin operations. They will have a trained fire brigade, consisting of the men, about twelve in number, who will be regular hands on the place. There is a fine supply of water on the place, from artesian wells.

Mr. Fallum, the man who took the aconite for pain-killer, got over it, and has gone back to Vermont.

C. C. Brown, who for some months has been very ill, is slowly gaining again, and we hope to see him on our streets soon.

Mrs. Lothrop, a widow, and her five children, have all been down with scarlet fever. One little girl died. The others are now convalescent, and there are no new cases in this section.

Our brass band goes to San Pedro to join with the band of that place in celebrating the glorious Fourth.

Mr. Clark, of Tennessee, has taken charge of the Haylock House, and reports it crowded with guests. G. A. M.

SAN FERNANDO.

THE CROPS—CIRCUMVENTING THE GRAIN BAG CORNER.

Correspondence of the Times.]

SAN FERNANDO, June 16.—Another twelve-inch well has been bored with good results. The water supply, as far as this place is concerned, is now settled. Mr. Harrison has commenced another well and says he likes to sink wells in a valley where every one bored is a success.

The railroad men have just finished an immense water tank, which will be ready for use in a few days. It looks very much as if they intend giving us another railroad soon.

Miss Fannie Lockhart, of your city, has been visiting Mrs. Cal. Hubbard. She is a great favorite at San Fernando.

Senator Maclay has purchased a new threshing outfit, which is to be delivered at this place about the first of July, and will be started about the tenth. Col. Hubbard starts his thresher to-day in the west end of the valley on barley.

Some of the farmers say they will be through heading in four weeks, and I think they will from the way they are driving things. The grain is all of a good quality. The barley will all do for brewing and the wheat will make flour and bread like snow.

Some of the farmers will build bins to put the grain in, so that they may be in no hurry about selling and may also save for the present the heavy expense of buying sacks. If grain is stored in sacks the mice and rats cut the sacks badly, making it necessary to buy new sacks when the grain is sold. All of this extra expense is saved by putting the grain, as soon as threshed, in granaries or bins. At the present prices of sacks it would require a little fortune to buy enough for the crops of this valley.

It is generally said that Gov. Ben Porter has the best crop to the acre in San Fernando Valley, and everyone accords it to him cheerfully, for, as we say out in this granger region, Ben is a good fellow—industrious, enterprising—and he is getting richer every day. The next thing you hear of this useful man he will be endowing some college with a portion of his vast wealth.

The excavations for the foundation of the college building will be finished to-morrow. Then the stone work will be commenced, so as to be ready at the appointed time.

I hear it whispered that Judge B. M. Widney is maturing plans for a princely donation to the cause of education. Who next?

FLORENCE.

LIGHT FRUIT CROP—SEVERAL INTERESTING PERSONALS.

Correspondence of the Times.]

FLORENCE, June 17.—The weather is clear this morning, but for some time past it has been sort of "'alf and 'alf"—cloudy forenoons and sunshiny afternoons.

The fruit crop now has the appearance of being light.

Charles Serrot is building a house of five rooms, to cost about $1200, upon his acre-and-a-half lot, purchased of Mr. Granden, adjoining his father's premises on the north.

Our good-natured citizen, Everett Thaxter, has lumber on the spot for the erection of a house. It is intimated that he has engaged his calico with which to line the inside of the structure.

A fine house is being erected by George Nadeau, with the necessary modern improvements.

L. M. Russell and wife took an extended trip through Sierra Madre and then on to Riverside last week.

The Clark Brothers purchased the lease of the Compton Hotel held by Mr. Cooper of that place, instead of the hotel itself as reported.

T. E. Cleland, of Florence, is glad of the opportunity to correct, through the Times and Mirror, the industriously circulated impression that Henry Thaxter was connected with him in his threshing outfit.

It is a pleasure to refute the report that the scarlet fever is at Tejauna. It was one of those inevitable cases where people are apt to be "more scared than hurt." It is well, however, to use all proper precautions against contagious diseases. J. F. C.

SANTA ANA.

FINICKY FRUIT TREES—THAT PRELIMINARY SURVEY.

Correspondence of the Times.]

SANTA ANA, June 17.—Weather delightfully cool.

The fruit trees that have been so tardy in putting on their foliage, are now quite generally dressed in their deepest green. Some prune trees blossomed and produced fruit to one-third the usual size before there were any signs of leaves. Many apple trees are just blossoming, while others have fruit two-thirds grown. Nature don't seem to know how to behave this season.

The commissioners appointed to manage the Irvine ranch have been looking it over, with a view of fixing prices so that it may be placed upon the market. It is understood that they will make the prices for the different grades so reasonable that home-seekers will be induced to buy and settle on it.

The preliminary survey made by the California Southern through this section is regarded by the knowing ones as simply an effort to find a more practical route than the Temescals cañon from Colton to Oceanside. The two surveys—the one from Arlington to Orange and the other from Oceanside to Tustin—would seem to confirm this idea.

Vineyards are looking fine. The fruit seems to be setting well. The outlook is hopeful for a fine vintage this year. Oral.

damp weather, however, may dampen parcel prices.

The Spurgeon brick building is growing rapidly, and will soon be ready for the roof.

The contractor has commenced repairs on the Baptist church, and the congregation now worships in Tichnel Hall. The intention is to have the church ready for use by September 1st.

The frame of the new Christian Church is up.

Cupid has been at work in our midst. Charles Thomas wedded Miss Van Cleve, she daughter of Rev. Mr. Van Cleve, pastor of the M. E. Church in this place. To-night, Frank Fuller weds Miss Blanche Drips, the beautiful daughter of one of our leading contractors and builders.

Dan Baker, brother of Editor Baker, is quite sick.

Mrs. Dr. Elmendorf had the misfortune to step on a nail, and the wound thus made has caused her much suffering. She is now better.

Mrs. Wells says her silk worms are the liveliest spinners that she ever saw. She thinks the quality of silk produced is much better than last year. NEWTON.

WILMINGTON.

A VISITATION OF DIPHTHERIA—POSTPONED GATHERINGS.

Correspondence of the Times.

WILMINGTON, June 17.—"Children's Day" was not observed in our churches last Sunday, on account of the existence of diphtheria in the town, two cases of which have proved fatal in one family. The disease, however, is not spreading, and there is now known to be but one case.

The excursion of the Sunday schools to Santa Catalina Island, which was to have taken place last Saturday, on the steamer Falcon, was postponed for the same reason (diphtheria), as was also the "Pink Tea Social," announced for the evening before.

A moonlight excursion is talked of for next Saturday evening to Catalina, on the steamer Falcon.

Dr. Buchanan is back from Pomona for a few days. His health is improving.

Major Fallon and Mr. Peacock are both making notable improvements in their places recently purchased here. SUB.

LETTERS FROM THE PEOPLE.

[This is the Times-Mirror's Public Forum. Those who would stand thereon must first give the editor their real names and be responsible for their opinions and statements. Cultivate brevity, clearness of style and timeliness; write plainly and on five top cs, and use one side of the sheet only. Every contribution received by the editor is patiently and impartially considered, but we do not, of course undertake to print everything sent us.]

Editorial "Figgering."

To the Editor of the Times—SIR: The HERALD of June 11th, in its complaint against the Supervisors, says: "The rate adopted by the county this year, if we have been correctly informed, is $1 20 on the $100. On a valuation, say of $40,000,000, this will yield a revenue of $480,000 to the county. * * * * * When it is remembered that the county offices, which turn in fees, the County Clerk's and Recorder's are netting, the county large sums monthly, the supervisors will this year probably have the disposition of a million and a half of dollars." The rate of taxation is fixed by the Supervisors in October, and the matter has not, as yet, been even discussed by them. The supposition that the yearly revenue from the offices of the Clerk and Recorder will amount to a million dollars is so ridiculous that it may be assumed that the statement that the county will have a million and a half at its disposal is simply the result of carelessness, and that a half million is the sum intended to be named. Want of care in the editorial department of a leading newspaper is inexcusable. It is not surprising that a Democratic newspaper should, as the election day draws near, find fault with a Republican Board of Supervisors. X.

Benton's Hair Grower.

All who are bald, all who are becoming bald, all who do not want to be bald, all who are troubled with dandruff, or itching of the scalp; should use Benton's Hair Grower. Eighty per cent. of those using it have grown hair. It never fails to stop the hair from falling. Through sickness and fevers the hair sometimes falls off in a short time, and although the person may have remained bald for years, if you use Benton's Hair Grower according to directions you are sure of a growth of hair. In hundreds of cases we have produced a good growth of hair on those who have been bald and glazed for years. We have fully substantiated the following facts:

We grow hair in eighty cases out of a hundred, no matter how long bald.

Unlike other preparations, it contains no sugar of lead, or vegetable or mineral poisons.

It is a specific for falling hair, dandruff and itching of the scalp.

The Hair Grower is a Hair food and its composition is almost exactly like the oil which supplies the hair with its vitality.

DOUBLE AND TRIPLE STRENGTH.

When the skin is very tough and hard, and the follicle is apparently effectually closed, the single strength will sometimes fail to reach the papilla; in such cases the double or triple strength should be used in connection with the single, using them alternately.

Price, single strength, $1; double strength, $2; triple strength, $3. If your druggists have not got it we will send it prepaid on receipt of price.

BENTON HAIR GROWER CO.,
Cleveland, O.

For sale by C. F. Heinzeman, druggist and chemist, No. 122 North Main street, Los Angeles, Cal.

Proposals for Hay and Grain.

HEADQUARTERS DEPT OF ARIZONA, Office of the Chief Quartermaster, Whipple Barracks, Prescott, A. T., May 17, 1886.

Sealed proposals, in triplicate, subject to the usual conditions, will be received at this office only until 12 o'clock, noon, Saturday, June 19, 1886, when they will be opened in presence of such bidders as may attend, for the delivery at Bowie Station, A. T., during the period commencing July 1, and ending December 31, 1886, of one million five hundred thousand (1,500,000) pounds of oats or barley and two million (2,000,000) pounds of baled hay.

Bidders will be careful to state precisely the kind of hay they propose to furnish, whether oats, barley, wheat, bottom, alfalfa, etc.

The Government reserves the right to reject any or all proposals, or to accept any proposal for a less quantity than the total bid for.

Blank proposals, giving full instructions as to the manner of bidding, will be furnished on application to this office, or to the Post Quartermasters at Fort Bowie, Fort Thomas, Fort Lowell and Fort Huachuca, A. T., or to the Quartermaster's Agents at Maricopa, Benson and Bowie Station, A. T.

Envelopes containing proposals should be marked "Proposals for Supplies," and addressed to the Chief Quartermaster of the Department.

A. S. KIMBALL,
Quartermaster U. S. A.,
Chief Quartermaster.

FINANCE AND TRADE.

OFFICE OF THE TIMES,
LOS ANGELES, Thursday, June 17.

New Barley continues coming in pretty freely, and prices tend downward. The few farmers who were able to take advantage of the scant supply in stock recently, and rushed their new crops to market in advance of their neighbors, made a very good thing while prices were $1@1.10, but the bulk of the yield is now being disposed of at 80@90c, which materially narrows the margin for profit.

New Wheat is not expected here for a week or two yet. There is plenty of old Wheat still in stock, and there is no special reason why the new crop should be hurried forward, especially as dullness has of late been the prevailing feature of the market.

The Wool market continues firm, although there is comparatively little doing here at present. Most of the producers in this section have disposed of their spring clip, and on the whole the season has not been a bad one, most of the product having been disposed of at 11@13 cents—rates somewhat ahead of those obtained last year.

In Grain Bags the situation is decidedly mixed. The San Francisco syndicate continues to hold its stock firmly at 9¼@10 cents, the latter price being the prevailing figure. But dealers not in the ring are constantly selling at lower prices. The truth seems to be that the syndicate has been unable to control the supply to the extent designed, and that Bags have been obtained from unexpected sources in quantities large enough, if not to break the corner, at least to prevent the manipulators from carrying things with as high a hand as they began. Among other supplies received English returns Bags have been brought here overland in large quantities, and placed on the market at figures that are not oppressive to the farmers and at the same time are profitable to the importers. Still the requirements of the season's Wheat crop are such that it is by no means impossible that when these unexpected supplies are all taken up there may still be a demand for Bags, which will cause a much higher range of prices than any that has yet prevailed. As it is, some farmers are not disposed to submit to the present rates, which are double those of two months ago, and some of the large grain growers of the San Fernando Valley are now having huge bins built for storing their Wheat, preferring to hold it rather than pay exorbitant rates for Bags.

The market for Eggs continues upward, and an advance to 21@22c was noted today.

The weekly circular of A. Lusk & Co., of San Francisco, just issued, thus summarizes the Citrus Fruit market in that city:

Oranges: The arrivals for the week have been meagre, but fairly sufficient to supply the market, as the demand is limited and there plenty of Tahitis here. We quote Seedlings, in good order, $1.75 to $2.50 per box.

Lemons: Within the last week a demand has sprung up for bright, clean fruit, and we qote that character of fruit at from $2 75 to $3 25. We think it not improbable that they will go higher.

Limes: No arrivals.

Stocks and Bonds.

By Telegraph to The Times.

NEW YORK, June 17.—Government bonds dull and strong, with quotations ¼ per cent. higher for 4's and 4½'s, and higher for 6's.

Almost all stocks were higher at opening, although Erie was down ¾ per cent., Northern Pacific preferred ¼ per cent., and Western Union ⅜ per cent. The momentary heaviness in early dealings depressed the prices of most of the active stocks slightly below final figures; but these were generally the lowest of the day, for good buying set in, and prices continued strong on an active market until about noon. Realizing sales then checked the advance, but the market remained steady at near the best prices of the day, the volume of business showing material decrease, and closed steady.

Money on call easy, 1½@2½.
Prime paper, 4@5.
Sterling exchange, dull, unchanged; actual rates, $4 87 for 60-day bills, $4 89½ demand.

THE CITY.

Dots.

The High School Literary Society will hold its last meeting for the year this afternoon in the Assembly Room of the Normal School, beginning at 1:30 o'clock. The programme will be conducted by the middle class, and all friends are cordially invited.

Oldest and best Fire, Life and Accident insurance. Eight companies, all A 1. Eighty millions represented. Wm. R. Burke, agent, 55 North Spring street.

"Harrison, the well borer," has reduced prices of well-boring. See him before contracting. 113 Bunker Hill avenue.

B. Todd, M. D., Dentist, Bryson Block.

Insure your property with Ben E. Ward, 31 N. Spring street.

Dr. Urmy, Dentist, Schumacher block.

Give your property to Ben E. Ward to sell.

Buy your coal, wood, hay, feed and charcoal at Holmes & Scott's, 157 South Spring street, between Second and Third, west side. Telephone 145.

Nicdt's No. 8 wash kills the scale bug. Great reduction in price.

BRIEFS.

The Santa Rosa sails south to-day.

Two deaths were reported yesterday, both in the city.

The Baldwin vs. Bell libel suits came up to-morrow.

The Manufacturers' Association failed to get a quorum last night.

The Eagle Corps will have a patriotic ball in Armory Hall on the night of July 5th.

Francisco Ruiz will be examined by Justice Austin to-day, on the charge of stealing a horse.

Two horses were picked up by the police yesterday. One was restored and the other impounded.

The snap-crackers and flags for Young America's G. Fourth begin to loom up in the general market.

The High School badges will be presented in the Normal assembly room at 1:30 this afternoon.

The commencement exercises of the Chaffey College of Agriculture take place at Ontario to-day.

Marriage licenses were yesterday issued to A. L. Pellegrin and A. Egman, and to C. K. Carr and F. E. Lapier.

Tickets for Stanton Post's Patriotic Entertainment, June 22, are having a great sale. The programme is a fine one.

Work on the First Street Railroad to Boyle Heights began yesterday, and it is expected to be completed within ninety days.

Filed in the Recorder's office yesterday: 45 deeds, 10 mortgages, 12 satisfactions, 2 marriage licenses and 5 miscellaneous papers.

The City Warehouse, on Upper Main street, has just blossomed out with an artificial stone sidewalk—the first in Sonoratown.

Rev. Dr. Schreiber will lecture in German this evening at 7:45, in the Synagogue. No lectures will be delivered in the next two months.

The Odd Fellows gave a pleasant social at their hall, last night, with music, singing and recitations. After a fine supper dancing was indulged in.

A special venire for fifteen jurors, returnable this morning at 10 o'clock, was ordered by Judge Chesney yesterday, to serve in a contested probate case.

It is said that J. B. Lankershim will erect a building on his lot at the corner of Fourth and Fort streets, and next in a bid for the location of the post office.

"Jim" Mellus and Constable John Cline will have another pigeon-shoot at Agricultural Park, to-morrow. Thus far they have had two matches, both resulting in ties.

Capt. Kotlar wasn't the only one who got a leather medal from the Eagle Corps. Capt. Starin received one as large, ornate, as complimentary and as well earned.

Sheriff Geo. E. Gard left for San Quentin yesterday by the San Francisco train, having in custody the convicted robber Kalkan, who goes to the penitentiary for five years.

The hearing of Eugene Garnier's application for a writ of mandamus to have the Coroner exhume the body of Gaston Oxrart, will be heard before Judge Williams to-morrow.

There are messages at the Western Union office, No. 17 N. Main street, for Herbert Liegletter, James Hammell, Chas. E. More care H. H. Mourk, J. W. Bentz, W. B. Hunt, Eva Norton.

During the last few days a considerable amount of wheat in sacks has been received at the Capitol Mills. From the looks of the four-horse teams in which it is brought the wheat is hauled in from the country.

Old Sam Carson, the bold bee hunter, struck a swarm of bees yesterday afternoon, on the fence, at the corner of Bellevue and Buena Vista streets. He scooped them into a box with a piece of pasteboard and departed happy.

Mr. Milliken, of the East Los Angeles Ice Company, was unfortunately thrown out of his buggy opposite the Court House, on Main street, yesterday morning, in a collision with an express wagon. The third finger of his right hand was so badly smashed that Dr. Wise had to amputate it.

PERSONAL NEWS.

Isabel Morris and her troupe sailed for 'Frisco on the Elder, yesterday.

Ex-Mayor J. J. Bryant, of San Francisco, returned home on the north-bound train yesterday.

Deputy United States Marshal Carlos Orus went up to Santa Barbara, yesterday, on the Geo. W. Elder.

The TIMES had a pleasant call yesterday from Hon. A. P. Johnson, joint State Senator for San Bernardino and San Diego counties.

B. M. Jacobs, a banker of Tucson, and family are at the Depot Hotel, preparatory to taking up their residence at Santa Monica for the summer.

I. C. Curtis, chief clerk of the Natick House, is a nephew of Hon. Wm. S. Holman, who has just been renominated for Congressman in Indiana.

Miss Alice M. Broadwell, professor of history, mathematics and physical culture in the Los Angeles college, left yesterday for the East, where she will pass her summer vacation.

Dr. J. C. Handy, a prominent physician of Tucson and member of the Board of Supervisors of Pima county, who was on a short visit here, left for Tucson on the overland train yesterday.

At the Depot Hotel: A. Church, Mexico; B. M. Jacobs and family, J. L. Buell, Tucson. A. T.; Mrs. C. W. Crail and children, Chicago; O. des Granges, Jr., Anaheim; E. r. A. W. Jackson, Santa Barbara; Mr. and Mrs. S. B. Jacot, New York city.

"THEM OFFISIZ."

People who are Reaching for Political Plums.

SEEKERS OF STATE AND COUNTY HONORS

Los Angeles County Bobs up Serenely with an Able Army of Willing Barkises.

Politics in its present local aspect resembles the Irishman's owl—it "don't say a wurrud, but it kapes up a divil of a thinkin'." There is very little surface activity, very little apparent rustling; but the man up a commanding eucalyptus, with a good ear-trumpet and a telescope, will perceive that there is a power of still-hunting being done. There is also some hunting for the products of the still—but this is another matter. The fact that State, county and city tickets are all to be filled this year, gives the chase a very broad field. There are patriots galore willing to sacrifice self for every place from dog-catcher up to Governor. If all the candidates could be marshaled into one imposing phalanx, they would be enough to rout even the real estate regiment.

As to the state ticket, Los Angeles county is modest. Half the world, fried on one side, is good enough for her. For Governor, no Republican is known to have serious aspirations, though Congressman Markham's friends suggest him for the honor. The Democrats are less retiring, however, and at least two of them have the gubernatorial stomach-ache, and have it bad. Gov. Geo. Stoneman would not be selfish if his constituents stuck a six-shooter in his face and demanded that he succeed himself. L. J. Rose, encouraged by a boom, some months since, in a San Bernardino journal, makes no secret among his friends of the fact that he would like to sip a glass of gubernatorial brandy of the vintage of '86. In fact, he is already working an able corkscrew into the nominative cork.

For Lieutenant-Governor, Hon. John P. Stearns, of Santa Barbara, looms up among the strong Republican timber. Hon. J. F. Crank of San Gabriel is also mentioned in that neck of the woods. In the Democratic bushes is the athletic frame of Abbott Kinney, of Kinneyloa. He would not strike anyone real hard who should thrice offer him the vice-regal crown. If careful irrigation of a boom would always raise a majority, he could doubtless "get there," but the question is "high hy!" (Chart on application at this office.)

For Secretary of State, Walter Scott Moore, Republican, looms sublime, effulgent and alone. No Los Angeles county Democrat would have the dying gall to run against him.

For Justice of the Supreme Court there is but one known candidate in the county, Judge A. Brunson, Republican, of the Superior Court.

For Clerk of the Supreme Court there seems equally little competition in the South Countree. It is darkly hinted that Gen. John E. Brierly of San Pedro has an anchor to windward in that port, and would be willing to sit down on that seat hard enough to insure it against being blown away. There are rumors, however, that "Dad" has "turned her head two points sow-sow-east," and is steering straight for the Assembly. You pays your money and you has your choice.

For Senator, the little birds are chirping the names of Col. E. E. Edwards of Santa Ana, and "Dick" Melrose of the Anaheim Gazette, Republicans both.

For Congress, Col. H. H. Markham, Major Geo. H. Bonebrake and Mayor E. F. Spence are mentioned among the Republicans; J. D. Lynch, of the Herald, and Hon. R. F. Del Valle among the Democrats. Col. Markham, the present incumbent, has frequently expressed his desire to quit when his term is up; but a well-posted friend said yesterday that the probability that Col. Markham would accept renomination has grown much brighter of late. It is generally conceded that if he makes the race he will have a "walk over." It does not appear that Major Bonebrake, Mayor Spence or Mr. Del Valle are rending their clothing to secure the nomination; nor, on the other hand, has showing been made of reasonable probability that they would rudely spurn the honor if proffered. It has been well-known for months that Mr. Lynch was watering an infant boom with dispassionate assiduity.

Coming down to the county, the arena expands. There is evident much more rustling on the Republican side of the fence than on the Democratic. The results of the last few elections have made their imprint, and there is a diffidence in Democratic coin about facing the pitiless and uncompromising campaign assessment.

For Sheriff, Major Geo. E. Gard seems to have the call for re-election, though ex-Sheriff A. T. Currier is also mentioned. Thus much for the Republicans. The Democrats speak of Supervisor George Hinds and of Dick Barbam, whom Gard beat before. It is asserted by friends, however, that Mr. Hinds wouldn't be found dead with the office.

For District Attorney, on the Republican side, their friends are proposing Geo. M. Holton, the present incumbent, Jas. O. Daly, Wm. H. Williams and Maj. Horace Bell. In the Democratic wing, only T. B. Brown is thus far heard from.

For the Assessorship there is a scramble. Tax Collector Ed Hammond is said to have his eye screwed down on it; while Councilman Chas. B. Johnson, Deputy United States Ganger Ivar A. Weid and J. W. Meyers furnish other Republican timber from which to choose. Among the Democrats B. Bilderrain, the present incumbent, and ex Assessor J. W. Venable, of Downey, resemble Barkis.

For Recorder, the present incumbent, Frank A. Gibson, Republican, seems to have the field all to himself thus far.

For Clerk, Charles H. Dunsmoor, Republican, will be a candidate for re nomination. City Treasurer Jas. C. Kays, Democrat, is said to have designs on the office.

For Treasurer the only names heard are those of Supervisor Milton Lindley, L. J. Lockhart and Col. J. E. McComas of Pomona, all Republicans.

For Auditor, A. A. Montafio would not be averse to a second term. Lester Osborne thinks he would like it, too.

For Judge of the Superior Court to take Judge Brunson's place while Brunson takes the Supreme Bench, A. B. Chapman, Democrat, is mentioned.

Both Justices of the Peace, H. C. Austin and Rudolph Rainey, will doubtless be candidates for re-election. Capt. A. M. Thornton, now Under-sheriff, is mentioned for Township Justice, and would probably accept the nomination if proffered.

Constable Cline, of the township court, will not decline renomination. Deputy-Sheriff Martin G. Aguirre will be a strong claimant for the place.

For the city offices the rush does not seem to have begun, and nothing worth counting as a pointer has as yet turned up.

Frozen Beauty.

The latest novelties in ice-cream are offered by the Los Angeles Ice Cream Company in wonderful shapes never seen here before. Individual molds as follows: Turk's head, strawberry basket, orenquettes, fruits and flowers, birds and animals; also, in one, two and four quart molds, melons, horseshoes and ornamental bricks. They also make the following flavors of ice-cream: Napolitaine, vanilla, strawberry, chocolate, coffee, lemon, custard, pineapple, harlequin, pistache, orange, lemon, pineapple and raspberry water ices; also bonne glace, biscuit glace, cafe proline, cafe pate, macaroon, frozen pudding, tutte frutti, charlotte russe, brown bread, caramel, filbert, and plum-pudding ice-cream. P. O. box 468, telephone 47.

The Lowest Offer in Real Estate,

At 9, 11, 1, 3 and 4:30 o'clock. Our own team with careful driver. Thirty-five minutes the round trip. A gentleman from the office of the Company goes with the visitors to the tract from 263 N. Main street.

Call and See the List

Of subscribers to the Co-operative Nursery Tract. The names mount way up in the hundreds. 236 N. Main street. Free 'bus daily.

Nineteen Lots Unsold!

In the City Center tract, in the heart of the city, ten minutes from the postoffice. $390 per lot, with plank sidewalks, electric lights, beautiful cottage residences and graded streets. See advertisement.

The Big Safe Retrieved.

The fifteen-ton chrome steel vault assigned for the Childress Safe Deposit Bank was yesterday moved on rollers from First street to the rear of No. 27 South Spring street, where the new bank is to be located. It was taken in by way of Fort street and the alley in rear of the premises named. A considerable enlargement of the rear door of the bank room will need to be made to let the monster strong box in. The transfer from the depot to the place of destination was begun about ten o'clock Wednesday morning and completed yesterday afternoon. J. W. Means, the house mover, performed the work in a very satisfactory manner. Although it was necessary to leave the safe out of doors last night, no precautions were taken to keep any one from carrying it off.

A THIEVING YOUTH

Steals His Sister's Property and Sells It for a Song.

A boy who lives with his grandmother in East Los Angeles, but whose name is for the present suppressed, on Tuesday went to the house of his married sister while she was out, and, getting the key of her trunk, unlocked it and stole an old-fashioned gold watch and several trinkets. The sister, upon her return, discovering that her valuables had disappeared, notified the police. Chief Davis and officer Tyler suspected the boy and with the aid of another East Los Angeles lad, soon found him and taxed him with the robbery. He at first denied it, but afterwards confessed that he had taken the watch to the store of John Foshia, a Canadian who keeps a small harness shop on First street, between Main and Los Angeles, and sold it to him for $2. Tyler went to Foshia and demanded the watch, which was given up without difficulty. The boy was then taken to the police station, where he yet remains, and efforts will be made to have him sent to a reformatory institution, as he is of a decidedly vicious disposition and is believed to have purloined things around town, that were within easy reach, for at least two years. He is only fourteen years old. Officer Tyler then swore out a warrant for felony against Foshia before Justice Austin, charging the Candaian with having bought a gold watch from a minor, knowing the same to have been stolen. Foshia was arraigned yesterday, and his case is set for to-morrow, at 11 o'clock a. m., with bonds fixed at $500. The timekeeper is not very valuable, being possibly worth $15, but the circumstances of its purchase and the small price given, as well as the youthfulness of the seller, would have deterred most people from buying. The boy has further admitted that he has upon several occasions sold other things to Foshia, namely a set of harness and whips, which the defendant does not deny.

A BIG REAL ESTATE DEAL.

St. Vincent's College Block Bought by a Syndicate for a Hotel.

The Saint Vincent College property yesterday changed hands, the contract for the sale being completed late in the after noon. The purchase price is $100,000, and the purchasers are a syndicate composed of the following well-known gentlemen: Major G. H. Bonebrake, Major E. W. Jones, Dr. H. Einsabaugh, J. Frankenfield, James B. Lankershim, C. J. Fox, Milton Lindley, Hervey Lindley and Wm. Raymond. They propose to build upon the site of the college a first-class hotel, in the style of the Arlington Hotel at Santa Barbara, and will be more specially devoted to the accommodation of tourists. For the present the syndicate does not expect to incorporate, but articles of incorporation will be prepared before the hotel is built, when they will adopt the name of the "St. Vincent Hotel Co." The transfer papers will be immediately prepared and the new owners will enter into possession of the grounds at once, though the building itself will not be given up until the 1st of January. The fence encircling the property will be removed, and, as soon as the plans of the hotel are completed, building on the front upon the street will be commenced. The syndicate is confident that the hotel can be got ready in time for winter travel.

The south half of the block, fronting on Fort, Seventh and Hill, will probably be divided into building lots and placed in the market.

ANOTHER ENGLISH DEFEAT.

How the Quiet Landlord Did Up the Drummer.

Mine host Ed. Dunham, now of the St Elmo, but soon to be of the Nadeau, doesn't wear any sharpshooter badge or crossed rifles or gold medals or things. He doesn't even advertise that he ever saw a gun. Nevertheless, anyone who picks him up for a "sucker" on the shoot is going to be seriously relinquished. A few days ago a Mr. English, drummer for a 'Frisco house, and the medal-wearer of a northern sportsman's club, was seeking whom he might devour, and pitched upon the unpronounced landlord. He stamped Dunham to a shoot at pigeons, and Dunham timidly consented. Then Mr English began to back himself on the result, first betting even and finally giving $20 to $10, till the stakes ran up, by successive jumps, to $100 a side. The match came off at Agricultural Park yesterday afternoon. Each had 12 birds, 30 yards rise. Mr. Dunham shot with a gun he had never seen before, but killed ten birds out of twelve. Mr. English killed four out of twelve.

THE ELECTRIC ROADS.

Los Angeles Still in the Van of Improvement.

Three carloads of rails, two of ties and two of poles, all for the Pico street branch of Col. C. H. Howland's system of electric street railroads, have arrived, and are being distributed along the line. Work will be commenced in a few days at the corner of Main and Pico streets; and Col. Howland expects to have the cars running within ninety days. More material is already on the way. M. L. Wicks, who has just returned from a trip East, made a careful examination of the electric street-car lines in operation there, with a view to applying at home the knowledge thus gained. He found the electric railroad in Baltimore operating successfully, and was much pleased with its workings. He thinks electric roads can be operated profitably in this city; and will at once proceed to organize a company to build such a line out Second street to Boyle Heights.

WELL UNDER WAY.

The Los Angeles Box Company's Important Enterprise.

C. D. Howry, one of the parties largely interested in the Los Angeles Box Company's factory, has just returned from a trip to San Jacinto, where a large mill—of which mention was made in the TIMES some time ago—for the manufacture of all kinds of fruit and berry boxes, is being erected by the company.

A part of the machinery has already arrived, and the remainder is on the way. A large force of men arrived at the place a few days ago, and it is expected that the mill, whose capacity will be 4000 boxes per day, will be in running order in sixty days.

The company's extensive enterprise adds considerably to the improvement of Southern California, and relieves fruit-growers of the necessity of importing boxes from distant places.

A Prime Investment.

Forty acres choice land, or eight 5-acre lots, at $324 per acre, out Temple street, one-quarter mile north on city line. Above price for few days only, as some lands adjoining are held at $400 per acre. Also two nicely improved lots at Sisters of Charity Hospital, for $699 each. Some cash wanted reason for selling. Apply to Wilcox & Robbins.

Eastern Business.

M. F. Tarble, who resided in Chicago for seventeen years, previous to coming to this city two years ago, returns to Chicago for a brief stay, leaving here Monday next, and will make purchases, or transact business there or elsewhere in the East for parties desirous of having him do so. He can be found at the Carriage Repository, 101 North Los Angeles street.

A Great Day.

Take the train, carriage, wagon or anything else, and go to the Emerald Club picnic at Arroyo Seco Sunday next. The Emerald's picnics are always good. Bring your families and enjoy yourselves. Improper characters excluded.

A Good Opportunity.

To-day and to-morrow are good days to purchase, at a little discount for cash, the celebrated Fragier road carts of E. F. Tarble, agent, 101 North Los Angeles street, who goes East next week for fresh stock.

Nineteen Lots Unsold!

Come and see the books of the City Centre tract.

PASADENA.

The Height of the Old—the Newly Elected.

PASADENA, June 17.—Civil Engineer J. H. Willard completed to-day his survey and profile of the grade line of the Colorado Street Railroad from Fair Oaks avenue to Hill avenue, east a distance of 8700 feet. The engineer has carefully ascertained the difference in altitude along the line above the ocean. The altitude at the corner of Colorado street and Fair Oaks avenue is 997 43-100 feet; at the junction of Colorado street and the L. A. & S. G. V. R. R. tract the elevation is 995 60 100 feet; at the crown of Marengo avenue and Colorado street, the elevation 1016 18 100 feet; at Wilson avenue, the elevation is 969 feet; and Hill avenue is 950 47 100 feet above the ocean. These altitudes are about the average of the new city, except Orange Grove avenue, which is probably 25 feet higher than Marengo avenue at Colorado street.

THE LIBRARY BENEFIT.

The benefit performance of *Pygmalion and Galatea*, at Williams Hall last night, by the Isabel Morris Dramatic Company, was a success so far as the company was concerned, but only a partial success as to attendance—owing, no doubt, to the imperfect notice of the entertainment given the public. The consequence is that the net proceeds, which go to the public library, amount to only $7.50.

GETTING READY FOR BUSINESS.

The newly elected city officers received their certificates of election from County Clerk Dunsmoor to-day. A consultation meeting of the newly elected City Trustees will be had on Saturday afternoon, by which time it is believed the notice from the Secretary of State will have been received, announcing the fact of the filing, in his office, of the certificate of the Board of Supervisors of due incorporation of the city of Pasadena. The certificate of incorporation was forwarded to the Secretary of State on Tuesday last. At the informal meeting of the city fathers, Saturday, the new officers will take their respective seats of office, and fix a date on which the first meeting of the Trustees as an official body will be had, when the books of the infant government will be opened.

THE FAST-DRIVING DRUMMER.

A Convenient Witness Who Plays Hide-and-Seek.

The case of J. A. Pillsbury, the person who took offense at Officer Gus Smith, who warned him against fast driving, at the crossing of First and Spring streets, was called in Justice Austin's court yesterday. Pillsbury is charged with resisting an officer in the execution of his duty, and has been out on bail in $100 since June 1st. He has had his case continued twice on the ground of the absence of material witnesses, and yesterday managed to have it continued until the 23d inst., on the same ground.

Such extended continuances need not in law be granted, except under the sworn affidavit of the defendant, nor to be granted after a reasonable time has been given in which to enable the witnesses to answer the subpœna. Justice Austin said from the bench that he would not continue the case after the 23d inst.

An Unnatural Brute.

Officer Lemon, after a patient chase, caught a fellow in the Plaza Park last night in the act of a nameless crime. At the police station the prisoner gave the name of John Doe; but it was discovered that his name is L. Schmeiberer, aged about 35, and that he has something to do with the Anheuser-Busch botuling business. He was locked up.

Re-mercury, Sand of Gentle Horses.

At 10 o'clock John C. Bell, the auctioneer, will sell a band of thorough-bred American horses—not fully broken, fresh milch cows, with calves; give about twenty quarts; Durham stock buggies; surries, two-seated; double and single buggy harness. Read the advertisement in another column.

CONSUMPTION

And all the various diseases of the

HEAD, THROAT AND CHEST

Together with the

EYE, EAR AND HEART

Also all chronic diseases and diseases incident to females, successfully treated by

M. HILTON WILLIAMS,
M. D., M. C. P. S. O., 1887.

Medicated Inhalations used in all diseases of the Head, Throat and Chest.

CONSUMPTION.

From consumers "to waste away," usually applied to the advanced stage of lung disease.

The following are prominent symptoms in the first stage, and wherever any of them exist a thorough examination should always be made, with a view to arresting the disease if shown to exist: There is usually a sense of weariness upon a little exercise, a disposition to remain passive and idle, despondency, often from no apparent cause, a peculiar sensitiveness to the effect of cold, and a breathlessness upon moving quickly or descending a hill or stairs, a slight shocking cough, with or without expectoration, excitability upon slight occasions, flying pains through the chest or back, or under the shoulder blades. The symptoms are more noticeable toward or during the night; slight fever in the afternoon; cold feet and hands, or in many cases blue lividity of the hands and nose at the outset.

Constitutional or tubercular consumption is a common form of lung disease. The process is slow, but if left to itself no less sure. It usually begins with a dry cough. At first these tubercules are exceedingly minute the patient not at all suspecting their presence. Or finally they develop into more active disease, and then follows the train of symptoms which leaves no doubt as to its true character. Sometimes existing for a good or slight streaks in the mucus is the first indication of tubercular deposit or it may be only somewhat in the back, following by more or less heat in the palms of the hands, or an afternoon flush on the cheeks. The slow and gradual inroads of this form of consumption leave the stomach and appetite undisturbed for a considerable time. Finally, however, hectic fever and night sweats supervene, preceded by diarrhœa. Then the loss of flesh and strength becomes rapid, the chest contracts, the features sharp, the eye attains an unusual brilliancy, and the patient begins to realize that he is in the last stage of confirmed constitutional consumption.

It is when the disease is in the first stage that it should be eradicated, before the cough sets in, or the expectoration of mucus, and before the tubercules have softened. The inhalations will then completely absorb every tubercle in the lungs, and thus radically destroy that hereditary development of tubercular consumption.

Consultation free and prices within the reach of all.

The very best of references given from those already cured.

Those who desire to consult me in regard to their cases had better call at the office for an examination, but if impossible to visit the office personally, may write for List of Questions and circular, both of which will be sent free of charge. Address

HOW MAIN STREET LAND
Is Given Away.

Fourteen-year-old seedling orange trees have an auction value; $15 each is an extremely low figure. No farmer would contract to grow them for that sum. It would not begin to pay him for his labor. In fact he would ridicule such an offer. Twelve trees to a 50x132 foot lot at that price would equal $180. The city improvements, such as ten beautiful dwellings, heavy plank walks, electric lights, etc., nearly exhaust the difference between $180 and $325, the price of each lot on the Co-operative Nursery Tract. The owner therefore asks less than cost of improvements, the land is thrown in free. This is why the offer of the Co-operative Tract is the lowest ever made in this city. There is not a capitalist in Los Angeles who would agree to furnish like improvements for $300, that is, contract to take new land and put on it what we offer, waiting 14 years for his money.

So, practically, a fine and sightly piece of land is given away without charge. Examine this offer every way you choose, realize the tract's location, its a direct line with the city's growth, on the highest priced street we have, you may then understand that a small investment at our figures will return you many fold increase within a very few years.

There is not a flaw of any kind in the property; every detail is perfect, including the title. This is a forced sale. Otherwise no such price would be made. The reason is explained by the managers.

Many subscribers have already realized what we say; a large proportion of the lots are already sold. The remainder are already taken, if we can only rely on the promises of apparently sincere people. Five years hence this tract will be as near the city proper as Fourth and Main are now. What surer investment can one make. No other securities can begin to give like returns. Look around the cities in the United States. How many of their wealthy inhabitants became wealthy by real estate investments? Look at the United States statistics. What is the growing wealth of our country? Nine-tenths and more comprised of real estate. Then do you know anybody who has not largely profited themselves by investments in real estate in Los Angeles? We do not. Many have become rich thereby. Don't hesitate, but invest a little. Our installments permit you to advantage yourself with slight or no inconvenience.

Call for particulars, maps, etc., on J. M. Batchelor & Co., managers, 236 N. Main st., Baker Block. Open Saturday evenings from 7 to 8:30 o'clock.

The Crowning Success

OF THE SEASON.

Or e-half the Price of Adjoining Unimproved Property.

THE CITY CENTER TRACT.

151 lots at $390 each. Size of lots 50x125. First payment, $50; monthly payments, $20, without interest.

Elegant Improvements Made by the Company without Cost to the Lot-Holders—four Villa Residences to be Erected and to go with the Lots Without Additional Charge—First-Class Plank Walks on all the Streets—Mains, with Electric Lights, Free for One Year—The Distribution of the Lots will be Made on the 4th of October, 1886, on the Same Plan as that of the Child's Tract and the Urmston Tract, Both Inaugurated by this Company Under the Homestead Law.

THIS SPLENDID TRACT is in the very heart of Los Angeles, but one block from Pearl street, and situated on Eleventh, Twelfth and Pico streets, adjoining on the latter street the elegant grounds and mansion of Mrs. Foreman.

THE HOWLAND ELECTRIC MOTOR RAILWAY is now an assured fact on Pico street; the rails are on way here, and the cars will be running in sixty days.

The price of these lots is exactly one-half of the sum asked for those adjoining on the east, and which are unimproved.

The success of the Homesteads of the Southern California Land Company is strictly owing to *the low rate at which they place their properties before the public, and the fact that they offer only first-class City locations.* The high prices asked by middle men for lots are avoided. The Company desire to see the subscribers to these properties gain a handsome profit after the division of the Homesteads.

The sale of this Tract is on the Homestead plan (see Law of 1862), as the Childs Tract and the Urmston Tract. The land is sold as an entirety, and delivered over to the subscribers with all the improvements of villa residences planked sidewalks and electric lights, without further charge than the amount received in the aggregate from the subscribers, each one of whom has a vested right in the entire Tract.

The meeting of the subscribers for the distribution of these lots is fixed for October 4th, 1886.

The proceedings will be in accordance with the agreement recorded in the subscription book to the Tract, and signed by the purchasers.

No narrow streets. All streets and avenues are sixty feet wide.

The Street Railway on Pearl street, corner Pico street, is within one block of the Tract, and in sixty days Colonel Howland's Electric Motor Road will be completed, and cars running on Pico street past this entire property.

SOUTHERN CALIFORNIA LAND CO.,
No. 263 N. Main street.

LEGAL HOMESTEADS.

THE best lawyers in Los Angeles state that the Childs Tract, Urmston Tract and City Centre Tract Homesteads conform strictly to the LAW of the State in making a division of the property among the purchasers—each pur
